

# Chef's Beaver Tail

1. Print out on legal paper
2. Color brown and cut out along dotted line
3. Use hole punch to make two holes at top of tail
4. Thread a long piece of string or yarn through holes
5. Tie your beaver tail around waist

## Tip:

For a sturdier tail use this as a template to trace on thin cardboard. Cut out and add beaver tail pattern or your own design.
